Note1: The "same store" means the store operated 14months or more. The number of the same store changes every month. The above are preliminary figures. In principle, preliminary figures are announced by the second business day of each month. In cases where a difference exists between the preliminary and final figures, the preliminary figures will be revised to reflect the final figures when announcing the preliminary figures for the following month.

Overview

In August 2015, same-store sales increased by 17.0% year on year(yoy), while all store sales rose 111.6% yoy.

This month, we witnessed the record breaking heat swept across the country until the middle of the month. The sizzling weather brought customers to buy many t-shirts and shorts. The latter half of the month was rather unstable days with a lot of clouds and rains. However, the sales did not slow down with the brisk sales of daily necessities such as innerwear and rain-goods, while sales floors were freshened by autumn fashion.

The limited-time stretch jeans special price promotion worked well for the 2nd time since April, as part of the "Low Price Project", which succeeded to attract new and old customers to our stores.
