Note: The above are preliminary figures. In principle, preliminary figures are announced by the second business day of each month. In cases where a difference exists between the preliminary and final figures, the preliminary figures will be revised to reflect the final figures when announcing the preliminary figures for the following month.

Overview

In product categories, men's bottomwear and men's and ladies innerwear and legwear showed constant sales in June 2014. However, the seasonal volume selling items such as cut and sewn underperformed again and could not achieve YoY in sales. The fact that there was one less Saturday than previous year, affected this month's sales result as above. The estimated effect of one less Saturday is about 2%.
